

Why?

Us3

Why does life have to be so complex?
Tell me why does life have to be so complex?
If it was simple it would be simple
Just easy moving on
Why does life have to be so hard?
Tell me why does life have to be so hard?
If there was ease life could be a breeze
And people could be free
(chorus)
No songs in life that are mysteries
I want poems that are very simple to read
No crystal balls or strange tea leaves
Live practical no philosophies
I just wanna be very simple really
Just me
Why do people make you into something that you're not?
Why do people have to make you into something you're
not?
If they see you, then they see you
There ain't no mask on me
Why do people think that life is such a mystery?
Tell me why do people think that life is such a
mystery?
If you live right then it will be right
Be who you wanna be
(chorus)
Why does life have to be so complex?
Tell me why does life have to be so complex?
If you say it then you've said it
Once it's done just live for the moment
