

## As Good As It Gets

US5

Intro: Make the sunrise wake each morning 'till you opened up your eyes  
take the brightest stars at night and write your name across the sky  
i wouldn't stop until your world was just the way it should be  
but first i'd make you fall in love with me

V1: if i had a magic lamp to make my wishes to  
i wouldn't have to think all i would make each one for you  
if i caught a falling star and i could make my dreams come true  
i've been dreaming all my life of everything i'd do

chorus: Make the sunrise wake each morning 'till you opened up your eyes  
take the brightest stars at night and write your name across the sky  
i wouldn't stop until your world was just the way it should be  
but first i'd make you fall in love with me

V2: love can make you wish for powers you cannot possess  
but all i'd ever use them for is to bring you happiness  
girl i'm so in love with you there's nothing left to say  
accept that i'd do anything to make you feel this way  
oohhhhhh i

chorus x 2: Make the sunrise wake each morning 'till you opened up your eyes  
take the brightest stars at night and write your name across the sky  
i wouldn't stop until your world was just the way it should be  
but first i'd make you fall in love with me  
but first i'd make you fall

chorus: Make the sunrise wake each morning 'till you opened up your eyes  
take the brightest stars at night and write your name across the sky  
i wouldn't stop until your world was just the way it should be  
but first i'd make you fall in love with me  
(2 x )but first i'd make you fall
