

Shorty you look like an angel
I like the way that you move
feel your body talking and I like it
I can see that you're starring
you like the things that I do
where you go - I gotta know
get knockin' next to you yeah

I've got the fever that you like
don't make me break the time is right
shorty you got me hypnotized
every night holdin' you tight

Boom - I like the way that you move
come on over let's see
can I be the only one you need girl
Boom - I like the way you get down
come let's turn it around work it out
show you what I'm about - yeah yeah
...boom...get down...boom...let's turn it around...

Mommy you got me addicted
with everything that you do
with your sexy smilin' - got me trippin'
I got a real permanission
and that's about me and you
so come around and gettin' down
until my time is through yeah

Come on baby girl
tell me what you feel
anything you want
I can make it real
moving closer now
wanna hold you tight
'cause you know I be
the one that you need
so baby
comin' to me

Boom - I like the way that you move
come on over let's see
can I be the only one you need girl
Boom - I like the way you get down (you got the favour
one yeah)
come let's turn it around work it out
show you what I'm about - yeah yeah

Boom - I like the way that you move
come on over let's see (you are what I am waiting for)
can I be the only one you need girl
Boom - I like the way you get down (I like the way you
shake it girl)
come let's turn it around work it out
show you what I'm about - yeah yeah
