

Endless Feeling

US5

There's a time when you stop pretending
And you see there's a new beginning
There's a truth you can't deny
And it comes from deep inside
When your heart one day finds a hero

Like a child who is lost, then rescued
There's a light in your eyes that shines through
Simple words cannot describe
What the world is tryin' to find

Have you ever loved someone forever
An endless feeling
Wake up in the morning, see them smiling
An endless feeling
Baby when you look into my eyes
Can you feel this endless feeling
I never felt like this before
In love

Now I feel this will last forever
You and I hand in hand together
Unified, side by side as one love
You're the light shining down from above
I'm prepared to sacrifice
Just to have you in my life

Have you ever loved someone forever
An endless feeling
Wake up in the morning see them smiling
An endless feeling
Baby when you look into my eyes
Can you feel this endless feeling
I never felt like this before
In love
