

Now you say you're confused
You're looking to find
The right direction maybe
There's more to see in this life

You feel all alone
It's hard to keep on holdin' on
Give the Lord a chance to make it all right

He gave his love for our sins
For all of time, lose or win
Now and forever

Jesus always will love me
He'll always stay by my side
Jesus always will love me
And the truth I cannot deny

You pray for some hope
You're wondering why
Sometimes it seems so crazy
Have faith and you'll be all right

You're never alone
You'll find the strength to carry on
Through the darkest times
He'll show you the light

And if a time will come that I should fall (fall)
I know that he will keep me standin' tall (tall)
Until my dyin' day I'll dedicate my life to Jesus

Jesus always will love me
He'll always stay by my side
Jesus always will love me
And the truth I cannot deny

And if a time will come that I should fall
I know that he will keep me standin' tall
Until my dyin' day I'll dedicate my life to Jesus

And if a time will come that I should fall (fall)
I know that he will keep me standin' tall (tall)
Until my dyin' day I'll dedicate my life to Jesus

Jesus always will love me
He'll always stay by my side
Jesus always will love me
And the truth I cannot deny
