

Nothing Left To Say

US5

There's nothing left to say
Got nowhere left to go
I feel it in my heart beat
Can you feel my heart beat
I'm torn into pieces
Don't know all the reasons
But you gotta go
I'm taking back control

I can see you, you're looking away
Like a player that's caught in the game
Tell me
If you're seein' somebody
Are you seein' somebody else
Somebody else

You can claim that it's all in my head
Talkin' crazy well you pushed me to this
Tell me
Is there really somebody
If there's really somebody else
There's nothing left to say
Got nowhere left to go
I feel it in my heart beat
Can you feel my heart beat
I'm torn into pieces
Don't know all the reasons
But you gotta go
I'm taking back control

You can't tell me you love me the same
Stop pretending and just take the blame
Show me
That there's really nobody
Cos I know there's somebody else

St-st-stuttering because you got caught
Now I'm taking back all the lies that I bought
Sorry
Gotta find me somebody
Gotta find me somebody else

There's nothing left to say
Got nowhere left to go
I feel it in my heart beat
Can you feel my heart beat
I'm torn into pieces
Don't know all the reasons
But you gotta go
I'm taking back control

No telling me you can make this better
No asking me to forget your lies
It's gone too far you can't change a thing
About me
