

Don't forget we're still in control  
And we ain't never gonna stop, we rock,  
We got better, stock together,  
Through whatever, we'll stay on top, unite  
It gets better, we're together,  
Through whatever, we're stay on top

Could you believe we'd fall off track  
And not come back, but look who's back,  
Stronger and tougher

And what did you think,  
That we would stop, but we're still hot,  
So just see, we can't be  
Held back

We heard it all, people lied  
Tried to bring us down,  
They wanted us just to break  
But we're still around, they never  
tell all the facts, crazy what they see  
But that's alright if they don't believe, be-lieve

It's hard to believe how people hate,  
And perpetrate, things that we face,  
Make us wiser

They say everything, to break our souls  
Make us feel low, but we won't go, out just, like that

We heard it all, vicious lies, just to bring us down,  
Dirty rumours, gossipin, spreading things around  
They never tell all the facts,  
Crazy what they say,  
But that's alright if they don't believe, be-lieve
