

Everything Turned Red

Useless ID

I am still waiting for one happy ending
I take back the secret, I want you to know
Bright lights and dark screens won't save the last scene
Maybe next time I see you won't be in my dreams

I wish that I had a chance to get to know you
Everything turned red the first time I saw you

Full of affection to get your attention
You read me your lines then I gave you this song
You messed up this one, I better move on
When it seems like we're heading in our separate ways

I wish that I had a chance to get to know you
Everything turned red the first time I saw you

Everything turned red the first time I saw you (2x)

Everything turned, everything turned, everything turned red

Everything turned red the first time I saw you

Everything turned red...
