

Normal with You

Useless ID

I know it's wrong but I keep on asking just because I'm curious
Did he touch you the same way I did
It doesn't really make much sense

The demon is out and he took my life
So please bring me an exorcist
It haunts me knowing that I've been a statue
Cause I've been feeling like one since

I'm just suffering with you
I'm just suffering with you

She envies every move you make
Cause she'll never have your attitude
She wants to get in on every detail
To feel like she's better than you

You find it hard to believe it's true
But it's your low self esteem
Attacking me as I keep on trying
But there's no air for me to breath

I'm just suffering with you
I'm just suffering with you

Did you feel that we're lost our way?
I know, I know you're mistaken
I'm getting tired of all these games
And the time the time its replacing

To be normal with you
To be normal with you
To be normal

Did you feel that we're lost our way?
I know, I know you're mistaken
I'm getting tired of all these games
And the time the time its replacing

To be normal with you
To be normal with you
To be normal

I'm just suffering with you
I'm just suffering with you
I'm just suffering
(To be normal with you)

Normal with you
