

Turn Up The Stereo

Useless ID

They say you' re never gonna make it.
you don't know how, don't know how
We're from a different generation
They cant see what' s its all about
If I take you down to a place I left behind,
would it make you understand?

I say, it doesn't really matter when you're all grown up, all g
rown up
As long as you know where your heart is,
don't be scared. let it out.

If I take you down to a place I left behind,
would it make you understand?

Can you hear the pirate radio? Turn it up, the sound, of revolu
tion
come on, Play it loud and steal the air while you can, because
were going back in time.
Can you hear the pirate radio? Turn it up, the sound, of revolu
tion
come on, Play it loud and steal the air while you can, 'cause w
ere going back in time.

They say you're living in a dream world.
you better wake up, better wake up
Sometimes I'd rather stay asleep.

If I take you down to a place I left behind, would it make you
understand?

Can you hear the pirate radio? Turn it up, the sound, of revolu
tion
come on, Play it loud and steal the air while you can, because
were going back in time.
Can you hear the pirate radio? Turn it up, the sound, of revolu
tion
come on, Play it loud and steal the air while you can, 'cause w
ere going back in time.

I know where I belong,
Miles away from here
I Hope I see you there

Can you hear the pirate radio?
Can you hear the pirate radio?
