BUMP LYRICS

At-at, what? At-at-at, what?

At-at-at, what? At, don't stop, don't stop

At-at, what? At-at-at, what?

At-at-at, what? At, don't stop, don't stop

I don't know where we go, I don't know where we go
And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to go
I don't know where we go, I don't know where we go
And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to
Bump, bump, bump, bump, bump, bump
(At-at what?)
Bump, bump, bump, bump, bump, bump
(At-at-at, what?)
Bump, bump, bump, bump, bump, bump
(At, don't stop, don't stop)
As we bump, bump, bump, bump, bump

She hit me with that killer
She make me sling the skrilla
Body tight for the summer
Get it, get (?) for the winter
Real player makers
Need something to (?)
Now she on my mind
I need something to spend my day on
And I love her like my niggas, my niggas, my niggas
She ain't bout my feelin's, my feelin's, my feelin's
And (?) bout these hoes
Cause she the one I chose
Got the keys to the Benz
I don't even drive my shit no more

Bump, bump, bump, bump, bump, bump
(At-at what?)
Bump, bump, bump, bump, bump, bump
(At-at-at, what?)
Bump, bump, bump, bump, bump, bump
(At, don't stop, don't stop)
As we bump, bump, bump, bump, bump

I don't know where we go, I don't know where we go
And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to go
I don't know where we go, I don't know where we go

And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to

Bump, bump, bump, bump, bump, bump
(At-at what?)
Bump, bump, bump, bump, bump, bump
(At-at-at, what?)
Bump, bump, bump, bump, bump, bump
(At, don't stop, don't stop)
As we bump, bump, bump, bump, bump

I know you feel me gettin' better
Cause you all that's on my mind
Tonight's champagne and confetti
If you want, I stand in line
For a little loving
For a little bumping
How could you hear what I'm sayin'?
I'm hopin' and prayin', I'll say it again

I don't know where we go, I don't know where we go
And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to go
I don't know where we go, I don't know where we go
And I don't know what to call us
And I don't know what to call us
And I don't know how it starts and I don't know how
But I'm ready to go, I'm ready to

As we bump, don't stop
(At-at what?)
As we bump, don't stop
(At-at-at, what?)
(At-at, what? At-at-at, what?)
(At-at-at, what? At, don't stop, don't stop)
