

# Hottest Thing

Usher

I've been looking at you  
Turning brothers down  
Some got their song  
Well its time for me to holla now  
(Your body is calling, don't fight it)  
Ooh I like it

You're dancing all alone  
What's that all about?  
You're so fine  
But it's time for me to call you out  
(Watch out, I'll straight run up on ya)  
Girl I want ya

You're the hottest thing  
In the club tonight  
Having visions of making love tonight  
With you constantly  
To the break dawn  
We can shake the spot  
If you say it's on

Dancing so close  
Got me up like whoa  
We're doing the most  
Is living with you possible?  
(Your body is saying you want to)  
And I want you, oh baby  
More than you know sugar  
If only for one night  
I'll make you feel  
Like you've been to paradise  
It's all up to you - tell me something baby  
I know one thing

You're the hottest thing  
In the club tonight  
Having visions of making love tonight  
With you constantly  
To the break dawn  
We can shake the spot  
If you say it's on

You're the hottest thing  
In the club tonight  
Having visions of making love tonight  
With you constantly  
To the break dawn  
We can shake the spot  
If you say it's on

Baby tell me  
What's on your mind?  
Do you think that I'm being too forward  
Oh baby by coming at you, this way  
I can't help myself, you're...

You're the hottest thing  
In the club tonight  
Having visions of making love tonight  
With you constantly  
To the break dawn  
We can shake the spot  
If you say it's on
