Usher

I can't believe my eyes,  
Looking at your sexy, yes, body  
The way you do it with your hands up  
I just wanna be all over  
Let me rock, with you  
Don't let nothing interrupt this groove  
Going at it like we bout to  
Touchin all on you like you're my girl

You probably say that's a damn shame (that's a shame)  
I don't even know your name (no)  
I know it probably won't matter tonight  
Cause you been all on me I'm like  
OKAY!!  
okay  
I suggest we take this here home  
So we can make a love song  
I can be the best part of you waking up  
Shawdy holla at me if that sound  
OKAY!!

Ah ahh yea  
I see you wanna take it slow  
Go in drop it to the floor real low  
ooh You know I want you back cause I been all on that ass  
And you ain't looking at me sideways  
The DJ is playing the last song  
And its coming down to our last call  
This slow jam is specially dedicated, what better way for this night to end?  
Come on

You probably say that's a damn shame (that's a shame)
