Devil Inside

Everybody wants me to be their angel Everybody wants something they can cradle They don't know I burn They don't know I burn They don't know I burn

Maybe there's a devil (or something like it) inside Maybe there's a devil (or something like it) inside of me Devil (or something like it) inside Maybe there's a devil somewhere really deep inside me Devil inside of me Jealous angel deep inside me

You don't know cuz you're too busy reading labels You're missing all the action underneath my table I'm waiting for my turn Waiting for my turn Just waiting for my turn Just waiting for my turn

Maybe there's a devil (or something like it) inside Maybe there's a devil (or something like it) inside of me Devil (or something like it) inside Maybe there's a devil somewhere really deep inside me Devil inside of me Jealous angel deep inside me

Time to make it burn This is how I burn

Maybe there's a devil (or something like it) inside Maybe there's a devil (or something like it) inside of me Devil (or something like it) inside Maybe there's a devil somewhere really deep inside me Devil inside of me Jealous angel deep inside me
