

# Bad Little Actress

Utopia

I can't carry on  
This play is too long  
I must be going  
Extend my regrets

I gave it my best  
But now I'm going  
This is too much for me to take  
Something tells me that she's faking it

She says she don't care  
She wants to be fair  
She must be joking  
It's simple she said

Let's not lose our head  
Tell me she's joking  
This is too much for me to take  
But somebody isn't faking

Someone's heart is breaking  
And if you see her give her my critique  
She's a bad little actress

Gets no curtain call  
But the worst of all  
When the curtain falls  
There's no one at the backstage door

I'm more than her friend  
'Cause I knew her when  
She was no sensation  
She's wasting our time

Repeats all her lines  
What's her motivation?  
Now she won't share her stage with me  
Her performance was outrageous

Put me through some changes  
So if you see her give her my critique  
She's a bad little actress

Her delivery don't come naturally  
Anyone could see  
She doesn't mean a word she says  
Her mascara ran

And the show was panned  
But I'm still her biggest fan  
So when you see her give her my critique  
She's a bad little actress

Gets no curtain call  
But the worst of all  
When the curtain falls  
There's no one at the backstage door
