

Last Of The New Wave Riders

Utopia

The last of the new wave riders
Will be the first of the new age masters

Pick up your arms was the call
So I packed up my Fender and ran down the hall
Back to the fields and forests
Now I am one of them, yeah

"Turn on the power", cried the army of sound
And the hum of the amps shook the trees and the ground
And like a single man, we cranked up the knobs
And a thousand guitars sang our national anthem

The last of the new wave riders
Will be the first of the new age masters
The last of the new wave riders
Will be the first of the new age masters

We captured the whole human race
There was nowhere to hide, playin' filled every space
Jamming the world back into place
Everyone's a star

We hit the supreme overload
And the great amplifier began to explode
The smoke is slowly clearing away
And the whole universe is a giant guitar

The last of the new wave riders
Will be the first of the new age masters
The last of the new wave riders
Will be the first of the new age masters
