Baby just bring it all to me

You could be the one to turn it round, turn it round

So what i gotta do to turn ya round, turn ya round

If you wanna tell me just let me know

Why you turn away

It's like you're too afraid to trust

Give you everything i have

Baby girl i got it bad

Like a sickness in my head

For you I'll make all them other girls mad

Watch me shake them off my back

Let me shake them off like that

You better get ready too girl

Cause I'm about to put it on you girl

Everything you got I'm into you, into you
