

## An Act of Darkness

Vader

An act of darkness is in us  
Holy times and sacred season sites  
Oh, black hole empty God  
Let them devour their own light

An elevenfold cross eclipse  
Symmetric fourness not to be found  
Brightness protons vibrate outside  
The 10th Aire very unGod

Blind larvae of moonlight souls  
Trapped in the saliva of Times  
Root their lairs in mucus of the void  
A name of none and nothing

An elevenfold cross eclipse  
Symmetric fourness not to be found  
Brightness protons vibrate outside  
The 10th Aire very unGod

A non-form of all-forms is  
The paradox of the Highest Monads  
Haughty Lords, Gehenna below  
Govern those who govern

An elevenfold cross eclipse  
Symmetric fourness not to be found  
Brightness protons vibrate outside  
The 10th Aire very unGod
