

## Beast Raping

Vader

mammary vow to the pleasure hunt  
She gladly accepts in semen streams  
life-drenching vaginal penetralia  
Her Tokens of Loves are never defied

Drunken with the filth of the purest Desire  
obedient She spreads the legs truly wide  
for "Isis In Welcome" is the proper posture  
yet Lady of Command She always is

Human apes, all what's to despise  
too blind to see through Her Writ  
erect phalloi salute Her Glory  
of Fire-Hole astride the Beast

Slimy verses of wild-pounding gore  
is what She writes with the holies Pean  
all left for her is just to take  
one little step into your world

[In memory of John Whiteside Parsons (1914-1952) and his "Babal  
on Working"]
