

## Blast

Vader

Melted world  
Chaos exonerated - dominates  
Fire walks around...  
Blast  
Nuclear attack - total genocide  
All Gates are wide opened now!

But we are here  
We will survive  
With scorched wings spread  
We'll fly above

Look upon the red horizon  
New generation comes now  
The Future, The seed of Fire

Soon we'll absorb You all
