

## Never Say My Name

Vader

Since your rebirth  
I am always with you  
Deep in your mind  
Creative, protective

And never forget it...

I was and I am  
In your thoughts and your breath  
I dwell in your dreams  
I am your life and your death

I stay with you  
Every day, every night  
You hear my whispers  
I am your guide

So never again  
Say my name aloud  
Protect what you've got  
And keep it away from the crowd

...away from the crowd
