

# Wake Up

Vado

It's no rules no parameters  
Started off in high school was a amateur  
Copping shit you can't move built the stamina  
I told my youth make moves don't let em' stand witha'  
Checks blank 100 K or more?  
Lets make a bank tour  
Whatever you seen I seen more  
Plenty beef your heat freeze I squeezed off  
Phantom Hard top but the seats soft  
My man up looking down on me like a seesaw  
I don't know what happend before but times is rough I need enough to make my  
feet warm

"I woke up to some haze holding my pen steady  
They say the Lord on his way tell him I been ready  
As I inhale to the song  
It's Obvious that where I'm from was hell all along"  
(2x)

I heard enough like enough is enough  
I see a lot of rappers coming from under that bus  
No matter what they aint fucking with us  
Every Line is a uppercut plus one to the gut

Ask Bishop I had the best Juice  
Can't be cool with em n\*\*\*\* only respect shoot  
Check scams credit cards we did it  
Build a plan my advance gon get all the equipment  
The streets talking I always will listen  
Always think on the money so I'm Paying attention

"I woke up to some haze holding my pen steady  
They say the Lord on his way tell him I been ready  
As I inhale to the song  
It's Obvious that where I'm from was hell all along"

They Like man that kid glow  
In a pepto bismol color gran turismo  
After me there is no That could? head crack leave with his dough  
That make them sick to they stomachs  
Throwing up on this shit cause I don't spit I vomit  
Heavy grip four fifth lift if you want it  
Every trip whole clique even N\*\*\*\*\* with warrants  
I'm like Nino I see money  
The world is mine there's really no need for G money  
Your girl is mine you eating but see your team hungry  
That's word to mine them fingers can't take a thing from me

"I woke up to some haze holding my pen steady  
They say the Lord on his way tell him I been ready  
As I inhale to the song  
It's Obvious that where I'm from was hell all along"
