

No Respect

Vain

Smile for the camera you take a pretty picture
I'd like to hang one on my wall
But I get too sentimental
Seeing your face everyday
I like the way you mistreat love

But I keep coming back for more
Well I like abuse don't shut the door
We always want what we can't have
Just one more night

Go ahead and use me baby when it comes to you
Ain't got no self respect no respect for myself baby
Mistreat me right

No respect
No respect

Anytime you want me like a fool I'm waiting for you
I like the way you break my heart
It's so exciting waiting never knowing what you're feeling
I like the way you mistreat love

But I keep coming back for more
Well I like abuse don't shut the door
We always want what we can't have
Just one more night

So go ahead and use me baby when it comes to you
Ain't got no self respect no respect for myself baby
Mistreat me right

No respect for myself baby
No respect when it comes to you
No respect go ahead and use me
No respect
