

Powder Blue

Vain

Don't you know it's a secret place somewhere you always hide
All alone you can ease the pain that you felt deep inside
Powder Blue was the color of your eyes and of my dreams
All along you would do it for you always do it for love all
For love Powder Blue you got lost do it for love Powder Blue

Sleep way in your dreamy world could's just keep flowing by
All alone whose your best friend now his name is Powder Blue
While you hide you would do it for for you always do it for love
All for love Powder Blue you got lost do it for love Powder Blue
Blue Blue
Blue

Got my ticket on a big jet big jet plane should of known better
but I
Pain
Now six hours later I was there for you but where you lost Powder
Blue
Hay hay
Oh hay hay
Hay hay hay

And there was still noway

Love all for love Powder Blue Powder Blue you got lost do it for
love
Powder Blue you got lost... come on baby won't you do it for me
come on baby
Won't you do it for me Blue Blue Blue Blue...
