Ready

No education won't go to school All the boy knows is guitar and acting cool You know they're trying to be cool Hanging on the teens everybody knows Everybody says but you never never go You just leave it alone just leave it alone

You know I'm tired of being a small town boy I wanna go where there's lights and make some noise

I've a feeling that I'm ready for you Are you ready for me I've a feeling that I'm ready for you Are you ready for me

Shoot it I want you to shoot it

Pull my trigger let the rocks fly Everybody knows that you've got to do it or die So I gave it a try Vanity kills along with the road Come on baby help mr loosen my load

You know I'm tired of being a small town boy I wanna go where there's lights and make some noise

Then shoot it I want you to shoot it Shoot it I want you to shoot it Let's shoot it boys Vain
