

# Privacy Attracts A Crowd

Val Emmich

Don't be here  
Just get out  
Busybody idiots always have to ruin it

Don't be here  
It's not your place  
Everybody wants to see  
What's behind a mystery

Look at how the rumors fly  
Attract a crowd like bugs to light  
This used to be our retreat  
How easily they took it

Privacy attracts a crowd  
People wanna go where they're not allowed  
Privacy attracts a crowd  
Well do us a favor and get out

You people came and ruined a good thing  
You people came out of nowhere
