Problem Solver

Valient Thorr

workin out really helped, take a look at me now, im in
the middle of a
project on the brink of a breakthru, its on the tip of
my tongue people
always make things harder than they are, sittin on yr
ass wont get you
very far fallin off the wagon, help me get on up, im
backslidin on ya
can't remember that big idea thats floatin in the back
of my mind dont
try to feed me any of yr lies, yr problems might be big
but its not
about the size.
the problem is solved, you cant believe, ill untangle
any web they try
to weave you know what i mean, hook my brain to a
laptop screen the
problem is solved, yr worries are gone, what to do with
the body once
the mind is blown you hear what i said, big idea in the
back of my
head, you got will power,
but you don't got no guts,
u think u made a difference but it wasnt quite enough
psychic wars are
ragin behind closed doors, they want us outta here
paranoid addiction,
u heed its call, u know its only fear cut their lies in
half with a
dose of truth, goosebumps when u come near right on the
brink of a fit,
cause in yr mind u think u wanna kill brainwashed away
to an earthly
grave by nicotine and designer pills people always make
things harder
than they are, sittin on yr ass wont get you very far
the problem is
solved, you cant believe, ill untangle any web they try
to weave the
problem is solved, yr worries are gone, what to do with
the body once
the mind is blown workin out really helped, take a look
at me now, im
in the middle of a project on the brink of a breakthru,
its on the tip
of my tongue
