

# Run

## Vampire Weekend

Every dollar counts  
And every morning hurts  
We mostly work to live  
Until we live to work

She said,  
"You know  
There's nowhere else to go"  
But changing roles  
It struck me that the two of us could run

Worlds away from cars  
And all the stars and bars  
Where a little bit of condensation means so much  
And a little bit of change is all your little fingers touch

I said,  
"You know  
There's nowhere else to go"  
But changing roles  
It struck me that the two of us could run

Honey, with you  
Is the only way to go  
And I could take two  
But I really couldn't ever know

Honey, with you  
And a battered radio

We could try

So lead my feet away  
Cuz all they'll do is stay  
And I don't think your eyes  
Have ever looked surprised

She said,  
"You know  
There's nowhere else to go"  
But with her fund  
It struck me that the two of us could run

Honey, with you  
Is the only honest way to go  
And I could take two  
But I really couldn't ever know

Honey, with you  
And a battin radio

We could try
