

## Bury Me Alive

Vampires Everywhere!

Blood  
Right now I stand alone.  
Against all your lies.  
Right now I can't brave  
The Evil deep inside.  
Bury me alive, Bury me alive, bury me alive, bury me alive, bur  
y me alive, bury me alive, bury me alive.

This will be the last time  
You call my name out loud  
We're going to have some fun tonight.  
Rip your heart out from inside.  
We're going to have some fun tonight.  
Rip your heart out from inside.  
Call out all your friends  
That you have hypnotized  
Call out everything  
And all the guys you let inside.  
Bury me alive, Bury me alive, bury me alive, bury me alive, bur  
y me alive, bury me alive, bury me alive.

This will be the last time  
You call my name out loud.  
We're going to have some fun tonight.  
Rip your heart out from inside.  
We're going to have some fun tonight.  
Rip your heart out from inside.

Protect your neck.  
We're having some fun.

We're going to have some fun tonight.  
Rip your heart out from inside.  
We're going to have some fun tonight.  
Rip your heart out from inside.
