

## Dear Eliza

## Vampires Everywhere!

Dear Eliza burned  
To the ground  
Did you see her  
Staring back at me  
With eyes wide shut  
I know she had a love  
A post traumatic thirst for blood  
But this wont change a thing

She calls out into the night  
Her green eyes fade to white  
This will be, this will be, this will be your last night  
This will be your last night

Say goodbye not goodnight, ooh  
Say goodbye not goodnight, ooh

She screamed out loud  
Horror choked the crowd  
Faces turned to white  
Glowing in the night

And she cried the moment  
That she died and  
Sang her last goodbyes  
To the sky above

She calls out into the night  
Her green eyes fade to white  
This will be, this will be, this will be your last night  
This will be your last night

Say goodbye not goodnight, ooh  
Say goodbye not goodnight, ooh

When you breathe  
The noose ties  
Around your neck  
You're a liar baby  
A liar at your best
