

Forever forever

Vampires Everywhere!

We are young forever
Tied and bound together
Eyes bat toward the light, you better turn around
Lipstick hinted drops hit the ground

She calls my name
She calls my name

Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart
Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart
When you find your heart

We fight the light
Post human plight
Tourniquet the flaw, don't make a sound
Disassociate the world around

She calls my name
She calls my name

Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart
Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart
When you find your heart

Kill with me
You want to dance with me
You want to bite your tongue
Kill with me
You want to dance with me
You want to bite your tongue
Kill with me
You want to dance with me
You want to bite your tongue
Kill with me
You want to dance with me
You want to bite your tongue

Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart
Can you breathe tonight
Flying through the shadows
Can you see the light
When you find your heart

When you find your heart
