

## My Blood Is Yours (Amanda's Song)

Vampires Everywhere!

It's neurotic to trust me  
I am nothing to you  
Just another worm  
Filled with violent views  
You are my plague  
Inside of me  
You are my plague  
Feeding on me

Can you feel my heart inside your soul?  
I can feel you blood dripping out false hope

I am torn apart  
Torn apart and confused  
I am left for dead  
Misled and used  
In the end  
I am nothing to you  
Just a form of revenge  
Forced upon the accused

Can you feel my heart inside your soul?  
I can feel you blood dripping out false hope

You sleep in his bed  
Like the soulless feed the dead

Can you feel my heart inside your soul?  
I can feel you blood dripping out false hope
