

# Darkness

## Vampires on Tomato Juice

Darkness, come over me (darkness, come over me) (4x)  
Darkness, come over me (4x)

Darkness, I want you to come!

Time goes by and slips away  
I'm sad, I know that I can't stay  
Forever bound to this array

Years are passing in the storm  
The flesh is young the soul well-worn  
We didn't want it that way

When darkness falls we all shall drown

Don't you think that I am just insane? (insane, you're insane)  
Don't you think that I'm the one to blame?  
Don't you think that I am just insane? (insane, you're insane)  
Don't you think that I'm the one to blame?

(I'm not the one to blame) (2x)

Life goes by and drifts away  
The darkest black turns into grey  
Nothing left to defray

Families lost a thousand times  
No one's left to hear our cries  
We didn't want it that way

When darkness falls we all shall drown

Don't you think that I am just insane? (insane, you're insane)  
Don't you think that I'm the one to blame?  
Don't you think that I am just insane? (insane, you're insane)  
Don't you think that I'm the one to blame?

Time is passin' by, is passin' by  
Is time passin' by like clouds  
clouds in the sky (passin' by)  
Time is passin' in the sky  
(2x)

Time (is passin' by, is passin' by, is passin' by) (4x)  
Time is passin' by!

Darkness, come over me (4x)

Darkness, I want you to come! (2x)
