

Fallin

Vampires on Tomato Juice

Do you know me? / x

I know you, i know you far too well! / x

Hey! Do you remember?
Do you remember me?
Your weaker self!
The one you don't wanna see

I am the mirror!
The image of your thoughts
you wanna kill me!
but I just go on -- go on

Hey! Why don't you like me?
I was always there
You never complained!
You just didn't care
You try to hide me
but you can't hide yourself
you wanna find me?
So get out of your shell!

I am the mirror you can't escape
I am the riot forming your shape
(but I am the fire!)

Hey! Now I rememer!
I remember you
you're born from pain!
just like a tattoo

I am a picture!
You pretend to be
to see me fall!
Is all i wanna see

Hey! Why don't you like me?
I'm stronger than you
you're just complaining!
from your point of view

I try to hide you!
but I can't hide myself
I wanna find you
to get out of my shell

but I am the fire inside
that keeps you alive
when the world's so cold

when you're fallin

but I am the fire inside
that keeps you alive
when the world's so cold

I am the mirror you can't escape
I am the riot forming your shape

you can't escape
forming your shape
