

Legacy In Blood

Vampiria

Stranges thoughts round in my head
like ancient views in red
a call coming through centuries
like a legacy in my blood

There's someting growing into me
cannot control it much more time
I feel it round into my veins
and begins to awake

The anxiety controls me...
and your neck, so white
there's not too much to loose
come on, let me taste your blood

Aeternum vitae, hereditare in sanguinis, maledical dominus
I can feel the ancestral thirst
now my eyes see through the dark
we gonna live in the eternal night.

We gonna walk together, for all eternity wandering in the shadows
spreading the fear. Night will be our.
To hunt and drink, to hunt and drink forever, the essence of life.
