Psicho Mutation

Vampiria

When the night comes psicho mutatio begins
People shows psichotic side and it's behavior within.
Look where you walk, do it so carefully
Cause you cannot see all that there inhabit.

Welcome to the night, take off the mask
Show your real face.
The night can redempt a sin with ither
And I will to sin, tonight.

We live in the dark, where no one dares to go
Cause the fear feed our ancestral instinct.
The psichotic side that exist in our mind
Wake up in the night, when the concious sleeps.
Welcome to the night, take off the mask
Show your real face.

The night can redempt a sin with other
And I will go to sin tonight.
I have this cold eyes of tmorrow trying
To see a form of life.
I walk the true path of sorrow
Beneath this dark supernal night.

Old castles burn away in the horizon
Black ravens are veiling the stars.
A secret passage between unnamed graves
I feel my mind out of this world.
We live in the dark, where no one dares to go
Cause the fear feed our ancestral instinct.

The psichotic side that exist in our mind
Wake up in the night, when the concious sleep.
Welcome to the night take off the mask
Show your real face.

The night can redempt a sin with other
And I will go to sin.
Welcome to the night, take off the mask
Show your real face.
The night can redempt a sin with other
And I will go to sin, tonight.
