

# I Am Human

Van Canto

As soon as a new day arrives  
I reorder my life  
Walking on a million roads at a time  
There is no end to see  
Still I'm following me  
Keen on where I get to finally be  
What was done is done  
I built my life upon  
Every breath that I take  
There will be no regret  
As long as I won't forget  
That one decision to make  
I am human  
Will be forever  
Still I hope things change to better  
I am human  
Will be forever  
I have come to be forevermore  
Tell me I'm not doing right  
That I'm diverging inside  
Still I'm able to turn days into nights  
The best decision of mine  
Living to intensify  
And to give it more than just one try  
So what was done is done  
I built my life upon  
Every breath that I take  
There will be no regret  
As long as I won't forget  
That one decision to make  
I am human  
Will be forever  
Still I hope things change to better  
I am human  
Will be forever  
I have come to be forevermore  
I am human  
Will be forever  
Still I hope things change to better  
Am I godlike?  
A non-believer?  
Am I strong and still get weaker?  
Bring the light to deepest darkness  
Coldest nights will end to start this  
I am human  
Will be forever  
I have come to be forevermore  
From a storm to come  
To a deed undone  
I'll always be under burning suns  
I am human  
Will be forever  
Still I hope things change to better  
Am I godlike?  
A non-believer?  
Am I strong and still get weaker?  
Bring the light to deepest darkness

Coldest nights will end to start this  
I am human  
Will be forever  
I have come to be forevermore
