

Another Dream

Van Dyke Parks

You gave me a dream of love
Then you took it away
You melted my heart
The same way heat loves candle

Oh you really hurt my pride
When you took me for a ride
You left me with more grief
Than I can handle

Someone will bring another dream for me
Someone will bring another dream you'll see
A dream with hope for tomorrow
A dream to take away my sorrow
Someone will bring another dream for me

Oh you layed heaven at my feet
Then you took it away
Every morning I wake up
Hoping you'll be there

Oh I want to scream and shout
Gotta let my feelings out
Cause my blues keeps gettin bluer
Day by day

Someone will bring another dream for me
Someone will bring another dream you'll see
A dream with hope for tomorrow
A dream to take away my sorrow
Someone will bring another dream for me

You gave me a dream of love
Then you took it away
You melted my heart
The same way heat loves candle

Oh I want to scream and shout
Gotta let my feelings out
Cause my blues keeps gettin bluer
Day by day

Someone will bring another dream for me
Someone will bring another dream you see
A dream with hope for tomorrow
A dream to take away my sorrow
Someone will bring another dream for me
