

Look Away

Van Dyke Parks

We will break bread and we won't wonder why
In that great reunion in that by and by
Look away, look away, look away, look away

First come first serve will be the president
If he had the nerve he'd ask the government
Look away, look away, look away, look away, look away

Hear the train comin, you all get on board
Let the population be of one accord
Look away, look away, look awooo
