

# You're A Real Sweetheart

Van Dyke Parks

When my pals turned me down  
You're the best pal I've found  
You're a real sweetheart  
When my darkest day came  
You smiled just the same

You're a real sweetheart  
But now that I find  
Fate has been kind  
I'll build you a love nest

That's all silver-lined  
And I'll work and I'll slave  
For the things that you crave  
You're a real sweetheart
