

Honeybabysweetiedoll

Van Halen

Honey baby sweetie doll
You're the one that I want or I don't want one at all
Honey baby, my heart's aflame
I'm all fucked up and you're to blame

Honey baby sweetie girl
Let me count the ways you rock my world
Stone soul sister, soccer mom
Muchacha, amiga, cherry bomb

Baby lover
Angel faces
Satin doll
You straight up aces

I'm a bad little cowboy, send me to your room
Let's get started, let's not stop soon
I roll like the ocean when the moon is full
I'm a face grenade with the sex-pin pulled

Baby lover
Angel faces
Satin doll
You straight up aces

Honey baby Hampton's bitch
Kinda lost, sorta rich
I dig both and I don't care which
You're gonna make me crash
You red hot Florida trailer trash
Now that's a switch
