

# Stay Frosty

Van Halen

I journeyed to the North  
To hear what the preacher said  
He said, "your arms are too short to box with God,  
Learn these words instead",  
Gold tooth reflected,  
"My advice is free  
There's a trick to Christian values and its compulsory."

Stay Frosty  
That's what the preacher man said  
Stay Frosty  
His words still racket in my head  
Can't control your future  
Can't control your friends  
In a world without end...  
Stay Frosty  
Stay Frosty now, alright

Uh-uh-uh! Uh-uh-uh! Uh-uh-uh-uh-uh!  
Uh-uh-uh! Uh-uh-uh! Uh-uh-uh-uh-uh!

I travelled to the South  
The ancient Rabbi appeared to me  
Voice heavy with the sands of time, he made me see  
"Same as Kabbalah Dave but for you it's free  
God guides us on our journey  
But careful with those feet"

Stay frosty  
In a world without end  
Stay Frosty  
Like the ancient immortals said  
Don't want 'em to get your goat  
Don't show 'em where it's hid  
But that's just what I did  
Stay Frosty!  
Look out  
Stay Frosty!

Uh-uh-uh! Uh-uh-uh! Uh-uh-uh-uh-uh!  
Uh-uh-uh! Uh-uh-uh! Uh-uh-uh-uh-uh!

I journeyed to the East  
And I struggled to stay afloat  
A solitary Buddhist Monk threw me a rope  
Looked me in the eye  
And said, "Don't make me say this twice  
You want to be a monk, you got to cook a lot of rice"

Stay Frosty  
In a world without end  
Stay Frosty  
Work hard at this my friends  
Look beyond the Kung Fu fighting  
God is love  
But get it in writing  
Stay Frosty

Stay Frosty now

I wandered out West  
To the California Coast  
Where the folks who know about frostiness stay frostiest the most  
My brand new landlord proposed me a toast,  
"My West Coast host"

Stay Frosty  
Chant it like a Mantra  
Stay Frosty  
And there's nothing you can't handle  
Far and wide far as you ramble  
Trust in Allah  
But tie up your camel, and remember...  
Stay Frosty!
