

## Benediction

Van Morrison

My message this evenin'  
Is simple indeed  
Wherever you wander  
Whatever your breed  
There's just one thing baby  
That comes from above  
When push comes to shove  
Thank God for self love

Thank Him, Thank Him  
God for self love  
Thank Him, Thank Him  
God for self love  
When push comes to shove  
Thank God for self love

When livin' gets heavy  
And hope starts to fade  
You just can't continue  
That old masquerade  
Remember the power that comes from above  
When push comes to shove  
Thank God for self love

Thank Him, Thank Him  
God for self love  
Thank Him, Thank Him  
God for self love  
When push comes to shove  
Thank God for self love
