

Centerpiece

Van Morrison

The more I'm with you pretty baby
The more I feel my love increase
I'm building all my dreams around you
My happiness will never cease
But nothing's any good without you
Cause baby you're my centerpiece

I buy a house and garden somewhere
Along a country road a piece
A little cottage on the outskirts
Where we can really find release
But nothing's any good without you
Cause baby you're my centerpiece

Hey baby come and go

The more I'm with you pretty baby
The more I feel my love increase
I'm building all my dreams around you
My happiness will never cease
But nothing's any good without you
Cause baby you're my centerpiece

I buy a house and garden somewhere
Along a country road a piece
A little cottage on the outskirts
Where we can really find release
But nothing's any good without you
Cause baby you're my centerpiece
