## **Centerpiece**

Van Morrison

The more I'm with you pretty baby
The more I feel my love increase
I'm building all my dreams around you
My happiness will never cease
But nothing's any good without you
Cause baby you're my centerpiece

I buy a house and garden somewhere Along a country road a piece A little cottage on the outskirts Where we can really find release But nothing's any good without you Cause baby you're my centerpiece

Hey baby come and go

The more I'm with you pretty baby
The more I feel my love increase
I'm building all my dreams around you
My happiness will never cease
But nothing's any good without you
Cause baby you're my centerpiece

I buy a house and garden somewhere Along a country road a piece A little cottage on the outskirts Where we can really find release But nothing's any good without you Cause baby you're my centerpiece
