Higher than the World

Van Morrison

Well I'm higher than the world And I'm livin' in my dreams I'll make it better than it seems Today

And I'm higher than a cloud
And I'm living in the sound
I'll make it better than it seems
Today

Higher than the world
But my head is in a swirl
I gotta give a life a whirl
Today

Higher than the clouds Wrapped up in the sound I'll make it better all around Today

Higher than the world
But my head is in a swirl
I gotta give a life a whirl
Today

Higher in my mind
I'm going leave these blues behind
And I'll find what I find
Today

Cause I'm higher than the world And I'm wrapped up in my dreams I'll make it better than it seems Today

Yes, I'm higher than the world And I'm livin' in my mind I got to hold on to what I find Today

Just a little bit higher Little bit higher
