

# Lifetimes

Van Morrison

You sit in silence  
And the river answers  
And I have loved you many, many years  
I saw you standing by the wondrous river  
And I have come today  
To calm your fears

Those lifetimes  
So many lifetimes  
With you

The boatman singin' far across the water  
What is this feelin' in my heart and soul  
The nighttime angel spreads her wings around me  
And I feel the sadness  
And the river flows

Those lifetimes  
So many lifetimes  
With you

Listen to the music inside  
That is all that you have to do  
Listen to the music inside  
Can't you hear what it says to you

And I shall get to know you  
In these lifetimes  
In awe and wonder  
On down through the years  
The nighttime angel spreads her wings around me  
I feel the silence  
And my doubts are cleared

Those lifetimes  
So many lifetimes  
With you

Listen to the music inside  
That is all that you have to do  
Listen to the music inside  
Can't you hear what it says to you

Listen to the music inside  
That is all that you have to do  
Listen to the music inside  
Can't you hear what it says to you

Listen, listen listen...  
Can't you hear what it says to you  
That is all that you have to do  
Listen to the music inside
