## **Once a Day**

Van Morrison

When you found somebody new I thought I never would Forget you for I thought then that I never could But time has taken all my pain away Until now I'm down to hurtin' once a day

Once a day, all day long And once a night from dusk till dawn The only time I wish that you weren't gone Is once a day, every day, all day long

And I'm so glad I'm not like a friend that I knew one time He lost the one he loved and then he slowly lost his mind Sat around and cried his life away Lucky me I'm only hurtin' once a day

Once a day, all day long And once a night from dusk till dawn The only time I wish that you weren't gone Once a day, every day, all day long

Once a day, all day long And once a night from dusk till dawn The only time I wish that you weren't gone Is once a day, every day, all day long Once a day, every day, all day long Once a day, every day, all day long
