

Soul

Van Morrison

1. Soul is a feeling, feeling deep within
Soul is not the colour of your skin
Soul is the essence, essence from within
It is where everything begins

R: Soul is what you've been through
What's true for you
Where you going to
What you're gonna do

2. Soul is your station for the folk of your nation
Something that you wear with pride
Soul can be your vision or something that is hidden
It's not something that you gotta hide

R: Soul is what you've...

3. Soul can be your station for the folk of your nation
Something that you wear with pride
Soul can be your vision it can be your religion
Something that you just can't hide

4. Soul is a feeling, feeling deep within
Soul is not the colour of your skin
Soul is the essence, essence from within
Soul is where everything begins
