

# Start All Over Again

Van Morrison

The way you see me walking on  
That's why I'm telling you in song  
There's only one way to get ahead  
You've got to give it up instead  
Start all over again

You see me standing on the bridge  
I see the sunset in my view  
The field looks colorful to me  
I know there's more than I can see  
We can start all over again

Made it, made it, made it  
Made it through the winter time  
Made it through the spring  
Made it through the summer  
And the fall

That's why I'm giving you the time  
You always wanted your own mind  
The way is up to you and me  
And there's horizons yet to see  
When we start all over again
